## Electric Actuator Type Typ CN <br> Non Spring Return 40 Nm, IP55/66

ELODRIVE-Actuators are intended to be used for the operation of dampers, valves and other process control elements. The CN-Series of actuators remain in position in case of a power supply interruption. Direct mounting of the actuators onto the damper shafts is achieved via the centric clamping adapter. An enclosed anti-rotation strap ensures that the actuator remains in a defined position. The maximum rotation angle is $95^{\circ}$.

The following applies for all models of the product line CN:

## General Conception

■ One size for all types
■ Identical accessories for all models
■ Identical control functionality for all models

- Homogeneous control and voltage variants for all models
■ Universal wiring schematics

## Operational Functionality

■ Simple one-handed manual positioning - no disengaging of gears required

■ Direction of rotation (CW or CCW) and also signal $0 . . .10 \mathrm{~V}$ and $2 \ldots 10 \mathrm{~V}$ selectable via switch

## Motor and Gear Concept

■ Brushless DC-Motor - no wear and tear

- Constant running time, independent of load
■ Constant torque throughout the entire operating range
■ Synchronized parallel operation
- Very quiet operating

■ Innovative Solution for 100\% self-locking

## Control Concept

■ On/Off and Floating Point control combined in one system

- Wide supply voltage range (120/230V AC)
■ Automatic shutoff either when reaching programmed hard-stop or when reaching mechanical end-stop
■ No return voltage

## Adaptation possibilities

- Centric clamping adapter as a standard feature
■ Form fit adapter available in different sizes
- Special solutions for aggressive environments available upon request

## Housing Design

■ Protection degree IP55 and IP66 without additional encasement
■ Direct mounting even in limited spaces

- Positioning of the actuator can be achieved either via the enclosed antirotation strap or by using additional screws

## Scope of delivery

- Centric clamp adapter
- integrated position indicator
- Anti rotation strap
- Allen key
- Operation manual

## Available accessories

■ Form fit adapter on request

- Position indicator
